

Wall Street West/Wired Impact & Sustainability Assessment—*December 2009*. An assessment of the WIRED/Wall Street West program was completed to determine overall quantitative (economic and tax benefit) and qualitative impact on the 10 county region. Surveys, interviews, focus groups, data mining and input-output analysis were used to complete this 18 month study for the Department of Labor. Evaluation benchmarks were developed as well as a sustainability tool.

Great Valley Technology Alliance-Technology Benchmarks —*April 2007*. Summarization of technology initiatives from the institutions of higher education in the region which included technology employments, resources, and research and development. This study was used as a tool to measure the effectiveness of various technology initiatives.
